

Challenger Defender Pro: Model DP2-195

Deposit Drawer Safe

Contemporary light-weight design and construction.

The deposit drawer is mounted on smooth heavy-duty runners, which have been subjected to a life-cycle test of more than 100,000 operations.

The deposit system is capable of receiving envelopes and bags which are up to 50mm thick and with dimensions not exceeding a standard C5 envelope.

The Defender Pro range is built under the Integrated Management System (IMS) Certification, which encompasses the ISO 9001:2000, ISO 14001, and OHSAS: 18001 (Operational Health and Safety Assessment Series) Certifications - thus committing delivery of standard products, under pre-defined quality and safety procedures which are being continually monitored and assessed by Internal & External audits.

The Defender Pro manufacturer, Godrej, is also renowned for its ethical Business practices and its concern for environmental and social welfare.
