

Challenger File Resistant Filing Cabinet: Model 90/2

Designed to exacting European standards and certified by SP Technical Research Institute – Sweden, the 90/2 Fire Resistant Filing Cabinet is designed to protect valuable documentation from the impact of fire for up to 90 minutes.

Their contemporary light-weight design and construction includes a special tongue and groove construction between the drawers and body frame offers higher Fire and Impact Resistance.

Heavy duty double extension telescopic slides are used for individual drawers to provide easy movement. A central lock on the top drawer controls the locking of individual drawers. Drawers are equipped with a special latch which may be used to isolate individual drawers from the central locking feature.

These cabinets are supplied as standard with a two user Electronic Lock. Advanced locking options are also available.

Features:

- Protection Through Robust Construction
- Fire Tested & Certified to standard NT 017-90P
- Certified to 90 minutes Fire Resistance
- Advanced Tongue and Groove Construction
- All Round Protection for each Drawer
- Easy Movement of Drawers
- Drawer Access Isolation Latch
- Colour: RAL9010 Cream
